**SUPPLEMENT TO APPLICATION OF THE NORTH AMERICAN NUMBERING
PLAN ADMINISTRATOR, ON BEHALF OF THE CALIFORNIA
TELECOMMUNICATIONS INDUSTRY, FOR RELIEF OF THE 909 NUMBERING
PLAN AREA**

Neustar, Inc., the North American Numbering Plan Administrator (“NANPA”), in its role as the neutral third party numbering plan area (“NPA”) Relief Planner for California under the North American Numbering Plan and at the direction of Administrative Law Judge Troy K. Taira, hereby notifies the California Public Utilities Commission that the projected exhaust date for the 909 NPA has been revised to the third quarter 2020.

On June 23, 2017, NANPA filed an application on behalf of the telecommunications industry operating within the 909 NPA advising the Commission that the 909 NPA was projected to exhaust its supply of assignable central office (“CO”) codes during the first quarter of 2019 and requested a Commission order granting the industry’s recommendation to implement an all services overlay as the form of relief for the 909 NPA. The Commission responded by opening the above-captioned proceeding to gather input from the public and interested parties. Since that time, the 909 NPA has experienced a decrease in the rate of CO code assignments. As such, NANPA has published a revised forecast for the 909 NPA and moved the projected exhaust date

to third quarter 2020.¹ NANPA notified the Industry members involved in the relief planning of the 909 area code at the time of publication of the new exhaust projection. On March 29, 2018, Judge Taira directed NANPA to supplement the record with the new exhaust projection.² The change in the projected exhaust of the 909 NPA does not change the timeline for relief as recommended by the Industry and as set forth in the Application.

Respectfully submitted,
